8	Materials are relevant and useful.	28	0	0
9	Trainer was helpful.	28	0	0
10	Positive learning environment	28	0	0

## Trainer's Feedback

The Students were open-minded. They were open for discussions, interacted and well matured. They were enthusiastic and receptive to learn. The students are having a lot of potentials when compared to the previous year's batches. Half of the class needs to improve in their English language efficiency. We can give them few exercise or activities to improve their reading, listening, speaking and writing skills. Some of the students are highly creative and think out of the box. They have more potential but are playful and fun loving. They have to be guided, monitored and encouraged rightly to improve their self-efficacy. Some students lack motivation and are self-doubting. They need to be encouraged, guided and monitored and also have to give them some responsibilities, so that they show interests towards their career life.

## Students Feedback

- 1) I learned a lot of things in the workshop. Whatever was taught in this workshop will be implemented in my day to day activities.
- 2) This workshop made me to interact with my classmates and develop team spirit.
- 3) My stage fear had reduced and I feel confident now.
- 4) Psychometric Assessments are really accurate and helped me to build confidence.
- 5) This program has been beneficial not only mentally but also physically, we played and bonded with each other.
- 6) The learning techniques were very interesting and can be applied easily.
- 7) I came to know how to manage my emotions and I became very creative and started thinking positively.

## Trainers' Feedback

The Students were good but, slow in understanding. They should learn to be responsible, take ownership and be proactive. The students have to improve their analytical and logical thinking. They have to improve their listening skills. They should learn to be self disciplined.

1. The attitude of some of the Students need to be checked. They are always in groups, fun-loving, lack focus, break rules, lack self-disciplining, demanding, non-acceptance. Some students are very sensitive and moody.
2. Two students are not focused and need counseling. They cannot concentrate in studies.

## Students Feedback

I learnt about my self and my abilities and made me confident. It taught me how to cope with stresses and how to face them. It helped me to set goals for my future life for the first time  
It motivated me to change myself to achieve more.  
Assessed my intellectual and thinking abilities. So, I can improve myself in my weaker zones. It motivated me to show gratitude to people who helped me until this stage.

## **Result of Workshop on academics**

The effort contributed by the faculties and change in behavior of the first years students as a result of training experience, together had created to bring the best results in the University examinations. The following measures are adopted to improve the performance of the slow learners. Remedial classes

Extra classes conducted if there is a difficulty in understanding among the vernacular medium students extra classes are conducted.

### Counseling Sessions

Counseling sessions are organized for students teachers facing personal problems with the help of a professional counselor appointed by the Institute.

### Mentoring

Faculties are identified and assigned as mentors for all the students in the ratio of 1: 10.
