Course Code: IHS-VAC02-15

Course Artificial Intelligence

Duration: 16 Hrs

Course Objective:

The Participant will be able to understand:

- Artificial Intelligence (AI)
- Application of AI in hearing aids
- Advantages of AI hearing aids

Topic	Duration
Lecture 1 Introduction and overview Artificial Intelligence	2Hour
Lecture 2 Problem Solving through Artificial Intelligence	2Hour
Lecture 3 Artificial intelligence in our hearing aids	3Hour
Lecture 4 AI and machine learning	1Hour
Lecture 5 Real-life applications of machine learning and AI	1Hour
Lecture 6 AI in the hearing aid industry	1Hour
Lecture 7 Intelligent AI personalization	2Hour
Lecture 8 AI hearing Aids from Widex	3Hour
Lecture 9 Empowering for users through AI hearing aids	1Hour

Value Added Course: Artificial Intelligence

Date – 31st October 2022 – 2nd November 2022

The Program started by an introduction of the resource person Mr. Nagarjun Reddy from **Widex** India. The Resource person gave overview of what is Artificial Intelligence and how it can be used for empowering individual with hearing impairment in the modern world.

Aim and Objectives of the program

The program was aimed at providing the participants with an in-depth knowledge of Artificial Intelligence (AI) and its application in

The Participants after this program will be able to understand:

- Artificial Intelligence (AI)
- Application of AI in hearing aids
- Advantages of AI hearing aids

Topics Covered:

Campus: Chandaka, Bhubaneswar, Khordha, Odisha, pin: 754005, E-mail:ihsbbsr@margdarsi.org, web: www.ihsindia.org

Value Added Course: Endoscopic Evaluation (Hands-on training)

Date: 14th to 16th November 2022

The Program started with an introduction of Dr. Srinivas Dorasala, ENT specialist, Founder, and Director of CYCLOPS pvt. ltd. and his co-workers.

The Resource person explained the advantages of instrumental evaluation and instructed the procedure of it. Endoscopes from Serwell Medi-equip private limited company were used in this workshop.

Aim and Objectives of the program

The aim of the program was to provide the participants with an in-depth knowledge of instrumental evaluation using endoscope and provide the time of a pandemic.

The Objectives of the program were as follows:

- Explaining the instrumental evaluation using endoscopes.
- Explaining the benefits of oto-endoscope over manual endoscope.
- Giving hands-on experience to the students.

The participants gained knowledge about instrumental evaluation using endoscopy. They learned about the anatomical structures and a few pathological conditions. They learned about different scopes (0 and 70 degrees) and their use. They learned the procedure for administering an endoscope. They learned how to operate and handle it. They learned the cleaning procedures of the scope to control the spread of infection from one person to another.

Topics Covered:

- Lecture 1 Introduction to Instrumental evaluation
- Lecture 2 Anatomical structures and physiology in Normal individual
- Lecture 3 Anatomical structures in pathological conditions
- Lecture 4 Instrumental evaluation using endoscopy
- Lecture 5 Various types and models of endoscope
- Lecture 6 Procedure for administering endoscope
- Lecture 7 Cleaning procedures
- Lecture 8 Hands On Experience
