Trainer's Feedback

The Students were open-minded. They were open for discussions, interacted and well matured. They were enthusiastic and receptive to learn. The students are having a lot of potentials when compared to the previous year's batches. Half of the class needs to improve in their English language efficiency. We can give them few exercise or activities to improve their reading, listening, speaking and writing skills. Some of the students are highly creative and thinks out of the box. They have more potential but are playful and fun loving. They have to be guided, monitored and encouraged rightly to improve their self-efficacy. Some students lack motivation and are self-doubting. They need to be encouraged, guided and monitored and also have to give them some responsibilities, so that they show interests towards their career life.

Trainers' Feedback

The Students were good but, slow in understanding. They should learn to be responsible, take ownership and be proactive. The students have to improve their analytical and logical thinking. They have to improve their listening skills. They should learn to be self disciplined.

1. The attitude of some of the Students need to be checked. They are always in groups, fun-loving, lack focus, break rules, lack self-disciplining, demanding, non-acceptance. Some students are very sensitive and moody.
2. Twostudentsarenofocusedandneedcounseling.Theycannotconcentratein studies.
